EASTERN STATES

The Georgia Election

ATLANTA Oct 2—Returns from twenty counties give Smith (Dem) nominee for Governor 10 000 majority It the same proportion holds good in other counties the majority will be over 30 000

The Savannah Morning News will publish returns of thirty three counties all of which will give decided Dem ocratic majorities Returns from all parts of the State show large gains over 1868 Smith is elected by over 25 000 The election has been one of the most quiet and peaceable ever held in Georgia

Bloody Riot.

MACON Oct 2—A serious riot occurred at this city this morning between the whites and blacks It commenced with fistic uffs fights which developed into a fierce encounter with brick bats and pistols In the course of a few seconds about fifty shots were fired, by which one white man was killed and five or six negroes wounded two of whom have since died The affray lasted but a few minutes, when the negroes left the polls White men claim that the whole affair was premeditated on the part of the negroes, and that it was their intention to take forcible possession of the polls and that they originated the disturbance with this object The negroes however claim that they were driven from the polls by violence, and could get no chance to vote They were addressed by the Mayor later in the day, who guaranteed them protection but with few exceptions, they refused to vote and went to their homes

Schooner Wrecked—Crew Supposed to be Lost.

BUFFALO Oct 2—The schooner *Fleetwood* has just arrived and reports having passed the schooner *Hopelan* on her beam ends, ten miles this side of Rondeau The captain and crew are supposed to be lost

TOLEDO Oct 2—The brig *Dragon* arrived here to day and brought James Low a sailor, the only survivor of a crew of eight men of the schooner *Rapidan*, which capsized on Lake Erie in the gale of Friday night Low was adrift for sixty hours

Homicide

NEW ORLEANS Oct 2—Charles McCormick was shot and killed this afternoon by John Bennett, a policeman in a restoration office, on St Charles street Cause is unknown

WASHINGTON CITY

The Vienna Exposition

WASHINGTON Oct 2—In the course of a conversation with a gentleman yesterday the President referred to the Universal Exposition at Vienna and hoped that a good representation of American arts and industry would be found in competition with the products of European skill even if no Government aid should be granted He also declared his intention of asking Congress for a sufficient appropriation to send a delegation of United States workingmen to Vienna for the purpose of reporting upon the progress of the industrial arts in Europe as revealed by the forthcoming Exposition

American-British Claims Commission

The American and British Claims Commission met to day, but owing to the absence of Judge Frazer transacted no business, except closing proofs in cases of several claimants and adjourned until to morrow Judge Frazer has since arrived

Six Murderers in One Box

There was a remarkable scene in the Criminal Court to day, six men being arraigned charged with murder

The Reports from Japan Contradicted.

NEW YORK Oct 2—A Washington special reports that the Japanese Government had again reverted back to its former state of exclusiveness, and dismissed General Capron and other Americans from positions to which they were called, but thinks if they were true our Government would have been notified

BY ATLANTIC CABLE

Struck by Lightning

MADRID, Oct 2—A dispatch from the Township of Escurial twenty four miles northwest of this city, announces that the celebrated Monastery of Escuria has been struck by lightning this evening The building quickly caught fire and so rapid was its progress that the dome of the tower has already fallen The Palace with its splendid books and paintings and rare and costly manuscripts have been destroyed and apparently there is little prospect of saving from destruction the Mausoleum as well as the summer residence for Spanish Kings A party of engineers fully equipped with material for use in such emergencies has left Madrid for Escuria

The Great Exodus from Alsace and Lorraine

PARIS, Oct 2—Departures from Alsace and Lorraine of inhabitants who decline to assume German citizenship are upon an immense scale It is estimated that 8 000 emigrants from Alsace will take up their residences in Nancy alone, while large numbers go to other places Eighteen hundred left Metz last fortnight The population of the city is now only 10 000

From London

LONDON Oct 2—Dispatches from Melbourne, September 11th say the overland telegraph is finished

Eleven Persons Killed on a Railroad

TOULON Oct 2—A later dispatch from Carlisle says eleven persons were killed by the railroad collision this morning The number of the injured is not stated

CALIFORNIA

From San Francisco

SAN FRANCISCO, Oct 3—Thomas Palmer, cook on a schooner was choked to death while eating supper last night

Dr Woosencraft of the steamer *China*, reports that a fire in Hong kong August 22d, destroyed the most valuable collection of art ever known in China

A letter from Yokahama says the cause of the destruction of the mail steamer *Aracea* by fire has been thoroughly investigated before the United States Consul assisted by the Minister and senior naval officer, and the conclusion arrived at is that they are convinced that the fire was the result of intention and not of accident The inducement may have arisen from antipathy towards the company or some of its officers or from the fact that the Chinese passengers were so generally supplied with large sums of money This may have become known on shore and induced some wretch to fire the ship for the sake of an opportunity to rob these people During the conflagration two boats that had been alongside when the fire broke out, were left in charge of Japanese by their officers, who boarded the ship to help to extinguish the fire These boats the Japanese sailors in a cowardly manner set adrift leading no hand towards rescuing either the Chinese or even their own officers

Ueno formerly Commissioner of Customs of Yokahama has been appointed Japanese Minister resident at Washington, in place of Mori whose views were too progressive for the Embassy lately sent to America who until the present change of Government were deadly opposed to foreign encroachments

General Williams who proposed to contract a loan of twenty millions for the Japanese Government in order to start a National Bank but who was forced to go to Europe for it has resulted in the Oriental Bank dictating to the Government and Mr Shand, manager of the Mercantile Bank here takes a position of finance minister while the Superintendent General of Customs falls into Mr Lowdon's hands Thus the English secure themselves against loss and keep the revenues of the country within control

The captain of the Peruvian coolie ship which put into here in distress has been tried by the Japanese Government and informed that he is guilty of ill treatment for cutting off the queues of three Chinese, and according to Japan law should receive one hundred lashes As he is a Peruvian naval officer the Government foregoes to punish him, and has allowed him to leave, but as his two hundred coolies went on shore as witnesses, by order of the Government, the captain demands the return of his passengers and trouble appears ahead, in view of protests by several of the consuls

A Minister Poisoned

RALEIGH, Oct 2—An inquest was held to day over the body of Rev J Brenton Smith, who died suddenly yesterday They found strong evidences of poisoning The stomach of deceased will be sent to Philadelphia for examination It is thought almost certain that his death was occasioned by a sidilitz powder, which he drank, but how the poison came in it is not ascertained

Major Reese's Defalcation.

CHICAGO, Oct 3—A Washington special says the amount of money lost by the defalcation of Major Reese nephew of Senator Sherman, is said to be $4 000. The Senator, who is now in California, was telegraphed to to day that his relative was in trouble, and asked what should be done with him The Senator responded that the Government should prosecute him

Navy Employes to be Paid

W H Moore, Chief Clerk in the Auditor's office, and E B Curtis, Chief Clerk of the Second Comptroller's office, left for San Francisco yesterday to make arrangements for paying arrears to the Government laborers, workmen and mechanics who were employed between June 25th, 1868, and May 10th, 1869, at the Navy Yard there

Railroad Accident

EDWARDSVILLE, Oct 3—The express train on the Chicago and Alton railroad ran into the rear end of a freight train at a crossing near this place last night The passenger engine, baggage, express and four freight cars were demolished The wreck took fire, and at last accounts, the passengers and train men were endeavoring to save the remainder of the train, consisting of three sleeping cars and five coaches. The express messenger, engineer and fireman were slightly hurt.

BY ATLANTIC CABLE.

From London.

LONDON, Oct 3—The ninderpost has appeared in Tongfors Parish, West Riding, Yorkshire

Sir Charles Adderly, conservative member of Parliament, and Under Secretary of the Colonies under the late Disraeli Government, in a speech last night welcomed the General's decision and declared that the parties who fitted out the Confederate cruisers ought to pay for their depredations

A dispatch from Melbourne, dated September 11th, says that the overland telegraph line is completed.

A later dispatch from Carlisle says eleven persons were killed by the railroad collision this morning The number injured is not stated

During the past three months 54,000 emigrants have sailed from Liverpool for America.

FAIR GROUNDS, Oct 3 18:2

Reporter, what does this mean about a hundred dollar bill?' Queried a benevolent individual as I entered the grounds book in hand this morning So saying he produced an OREGONIAN and pointed to the statement that "The hundred dollar greenback will soon arrive, etc." I told him I supposed it referred to an association of capitalists who had clubbed together and bought one of those mythical affairs, and for years had taken their free drinks on that, the barkeep never being able to change it, and that at last the old bill had become so worn that to prevent loss it had been sent to the Treasury Department to be redeemed under the laws of Congress and that the dry times during the interval sufficiently explained why that greenback is to have such a "hearty welcome" Returned away with a pensive smile to muse on the depravity of city life and I to muse on the uncertainty of human affairs where fair is foul and foul is fair and foulest of all is the imitation of fair weather which we have been shown to day

The jury in our 'Fair case' has brought in a verdict of not guilty, that is to say the people have proved an *alibi*. There is no doubt that the exhibition is the finest one ever displayed by this society but the visitors are not here to see it There are more fine cattle, fine horses, fine sheep, hogs, poultry etc and finer animals, except perhaps in the case of horses, than have ever been seen together in Oregon The fine arts are well represented Machinery of all kinds makes a good display and everything requisite for a successful Fair has been here but the crowd

FINE CATTLE

Are an especial feature of this meeting The good effects of recent importations are already seen in the inquiry after breeding animals Many of the principal breeders have their stock here on exhibition, and the farmers never tire of going to see them and taking their wives and daughters One special object of interest in this line has been the short horn bull calf "Central Pacific," which was received on the Central Pacific Railroad, his mother having been imported from England to Canada, and immediately bought by Mr S G Reed (Central Pacific) is a magnificent animal, ten month's old, weighs 850 pounds, shows his blood in all his points, and has been purchased by Dr Tolmie of Victoria, for $1,000 in gold It is a pity to see such a beast leaving the State, but it is a credit to the country, that already we are able to send away such stock Mr Reed has seventeen head of cattle here, and of course, they are being liberally decorated with blue ribbons to day His Alderney cow is the center of much attraction She is a pretty little thing, the color of an elk, and marked about the head, eyes, ears and nostrils like some wild animal She was imported direct from Scotland and only makes one wish to see a hundred more of the same kind brought in B E Stewart & Sons got away with a number of premiums on their imported stock, among others a Holstein bull and heifer, which looked like a pair of scrub cattle, and scrubby ones at that, and yet judges of the breed assure us that they indicate all the points of a very excellent breed, and there is no doubt they are thoroughbred J J Burton, of Yamhill, had a fat ox, a monster suggestive of Christmas cheer He is a brother to the famous fat ox killed in Portland two years ago, and will be fully as large, besides of much better form D B Crawford, of Yamhill, had the largest animal on the ground a graded Durham bull, thirty months old, which took the premium as a grade Others have still other meritorious animals, but I am not now musing a catalogue.

BLOODED SHEEP

Are no small feature, and be question of long vs fine wool is ably argued on both sides The pioneer importers and breeders, such as T G Naylor, Thos. Cross, John Minto, and J. L Parrish, stick to their Merinos, and prove conclusively that there is nothing like this breed, and they have on hand large numbers of Spanish, French and American. While the new school of importers demonstrate that their Leicesters, Cotswolds, Oxfordshires, Lincolns, etc, which are exhibited by J R Cameron, Stewart, and a host of others, are the most profitable and the finest I have not been asked to decide the question, and only know that it takes money to experiment with either of them. Think of $500 in a sheep which a mangy cur can throttle in a wink, and reduce its value to a dollar and a half.

SWINE

Are perhaps the most remunerative of all stock, and the exhibit shows the people know it. S G Reed has a lot of pens well filled with imported stock, but he did not walk over that track In Buckskins, Thos Cross held him a close run and divided honors, Essexs he had to contend with J L Parrish, and again divide premiums. Both parties exhibited remarkable specimens of this breed D B Pickens, of Dallas, monopolised the Chester Whites and took all the ribbons He showed one magnificent boar, eight months old, which also took the sweepstake premium over all hogs D B Crawford got away with Suffolks, and Thos Cross of course is chief with grades

THE ANGORA GOATS

of Butterfield and of J L Parrish have been visited by thousands Mr Parrish took three premiums, one for best kid, on what Butterfield says is the best kid he ever saw His opponent let him for about half the ribbons

POULTRY

In this department there were a number of contestants and nearly all had different names for their birds, so all took prizes B E Stewart had a great many varieties, and among them a large lot of Buff Cochins of remarkable size and beauty It makes one dissatisfied with all his past digestion to think of a choice piece from one of these birds J L Parrish had, among others, a fine lot of game birds. One of them had grown so vicious that his spurs were sawed off, and now he will neither fight man nor beast. Turkeys, ducks and geese, are not in great numbers, so all of them got first premiums

The committees in the Pavilion are busy, and they are not to be envied They have a big job on hand Who can judge of the relative merits of squashes when he can't lift one of them, or of potatoes too big to boil in a small kettle, or of cabbage, beets, carrots, all out of reason in their size Or where is the man with heart of steel, to pass his judgment on a thousand kinds of jellies, jams and preserves? He can't taste them all and enjoy his sleep thereafter, and he don't know what they are like till he does taste them One man, who entered a splendid lot of potatoes, found this morning that he had less than a peck, but looking round he found that some one else had about a peck of his potatoes on exhibition, which were promptly restored and have since taken a premium Another who had dried fruit found that the committee had missed his display entirely On being notified, the committee did their work over again with a different result from the first.

The Daily Oregonian.

FRIDAY MORNING, OCTOBER 6, 1872.

A Different Proposition.

Two years ago the Legislature of Oregon passed what has been commonly known since as the Lock and Dam scheme, whereby a large amount of land held by the State for educational purposes, was diverted from its proper use, and devoted to the construction of a Canal and Locks around the falls at Oregon City. This action, at the time, met the almost unanimous opposition of the Republicans in the Legislature, and was very generally regarded by the party as an indefensible appropriation of the school funds to the use of a private corporation for party purposes. The measure, having received the support of a few Republican members of the Legislature, naturally found these members and those of their friends whom they could induce to believe with them, ready to defend it, on the ground of public policy, or commercial necessity, but the vast majority of the party could not be brought to see that the exigencies of commerce were a sufficient justification of an act which could not but affect injuriously the educational interests of the whole community. The Republican State Convention last spring, in accordance with this view, denounced the action of the Legislature in express and emphatic terms.

Meanwhile the company which had been designated by the Legislature, proceeded to construct the Canal and Locks, and have now, we are informed, nearly completed the work. Under the act of the Legislature above referred to, the Canal is to be free for the passage of all boats navigating the river, upon payment of tonnage dues and charges, to the company. This is the situation of affairs at the present time, when Mr. Simpson, a Republican member of the House, brings forward a bill to authorize the State to lease the Canal and Locks from the company, for a period of ten years, and to purchase them at the expiration of that time. Whether or not the legislation proposed by Mr. Simpson would be promotive of the best interests of the State—whether or not the amount proposed to be paid, assuming the lease or purchase to be desirable, is not greater than the State ought to pay for the works—whether or not the bill now brought forward contains suitable provisions to guard the State against being made the victim of private avarice or political dishonesty—these are questions upon which every member who proposes to vote for the measure should be thoroughly satisfied before casting his vote. But the phase which the matter has now assumed presents to the members of the Legislature a proposition totally different from that which received the condemnation of the Republican party in convention, and of the people at the polls. The thing that our party opposed and pronounced iniquitous, has become an accomplished fact. We may in the future refer back to its accomplishment as an illustration of the pernicious politics of the Democratic party, and as a reason for warning the people against that party; but we cannot undo what is done. The Canal and Locks will exist and be the property of the persons or private corporation which have built them, or into whose hands they may pass, despite all our indignation at the means by which they were built. The question now is, not whether it was right to use the school fund to construct a navigable channel around the falls of the Willamet, but, that channel having been constructed, whether it is good policy to, place it under the control of the State instead of allowing it to remain in private hands, to be used as capital stock for speculators. The Republican party has given no utterance upon this proposition, and it is for its representatives in the Legislature to govern their conduct according to their judgment as to what is best under all the circumstances.

Mr. Simpson's bill creates a Board of three Canal Commissioners, to be elected by the Legislature in joint convention, and to hold their offices for two years. The Commissioners, before entering upon their duties, are required to take and subscribe an oath to demean themselves faithfully in office. They are directed to make a contract with the Canal and Locks Company, whereby the Company shall lease the Canal and Locks to the State for ten years, for a sum not exceeding $50,000 per year, the lease not to be executed until after the works are completed. The Canal Commissioners, after receiving the Canal and Locks, are to have the control and management thereof, with the power to fix rates of toll, &c., and to employ a collector, and other suitable persons to attend to passing boats through the Locks, &c., and the Company is to pay the salary of the Commissioners and employees provided for. The State is to have the right to purchase the works, after ten years, paying the actual value, less the $200,000 appropriated out of the proceeds of the school lands by the act of 1870.

These are the principal features of the bill. The details of the plan for the carrying of these provisions into effect, are set forth at length, and the duties of all persons concerned in the operation of the Canal and Locks, are prescribed with convenient certainty.

The Democrats and "Liberals" in Minnesota are having a fierce wrangle among themselves. At the District Convention held at Owatonna, on the 19th and 20th of September, not half the counties of the district were represented, and the meeting was stormy in the extreme. The leaders of the Democratic side of the house insisted that the proceedings should be such as comported with the character of a Democratic body, while the "Liberals" were zealous for an organization which should recognize Greeleyism as something different from, and independent of, the Democratic party. There was a sharp war of words and wits at the opening of the convention, which grew no less acrimonious as it progressed, albeit some of the members of both wings did their utmost to restore order and harmony. The Democrats were evidently of the opinion that their humiliation in eating Presidential crow was quite their share in the common sacrifice which the hour demanded, while the "Liberal" stomach strenuously resisted the offer of Congressional buzzard. So they have not started out upon the fall campaign under the most auspicious skies imaginable. The Republicans meanwhile are sorely puzzled to know what their opponents mean by keeping up a bitter quarrel among themselves, when even with the most perfect accord and co-operation defeat would be certain. What is "Liberal" crow, or Democratic buzzard, to persons in such a situation?

We acknowledge the receipt of a complimentary ticket to the County Ala. Fifth Annual Fair of the Clarke County held at Vancouver and Mechanical Society, to be held on the 10th and 11th days of this month.

An Unequal Apportionment.

The Constitution of the State of Oregon requires that the Legislature at its next session after a census shall have been taken by this State or the United States, shall provide by law for such apportionment of Senators and Representatives among the several Senatorial and Representative districts, as shall secure equal representation in the two branches of the Legislative assembly to all the people of the State. A census was taken by the United States in 1870, before the Legislature convened, and it was clearly the duty of that body to obey this provision of the Constitution, by providing for such new apportionment. But the exigencies of party politics seemed to require a different line of action, and that Democratic Legislature showed itself capable of rising to the height of the great argument and coming to the rescue of its party, in the face of the Constitution. A new apportionment would increase the representation of some counties that were certain to give Republican majorities. The Legislature adjourned after a large amount of partisan work had been done, without doing anything with the matter of a new apportionment, though the Republican minority lost no opportunity of calling their attention to it.

The State of Oregon, according to the census of 1870, contains a population of 90,293. The State Senate consists of twenty-two members, and the House of forty-nine. This gives one Senator to 4,333 souls, and one Representative to 1,835. The population of Multnomah county is, by the same census, 11,510. Upon a just apportionment Multnomah county would have in the House, six members instead of four, with a fraction over, of one-fifth the number required for another member. In the Senate she would have two members, with a fraction of nearly two-thirds over. This would naturally throw Multnomah into a Senatorial District with some of the adjoining counties for one joint Senator, thus giving her two Senators to herself and a joint Senator, and six Representatives. Any person who is curious enough to run out the problem, will find that similar injustice results to other sections of the State, from this failure of the Legislature of 1870 to do its duty. It is hoped the present session will not be allowed to pass by without anything being done to equalize the representation of the State. The Constitution clearly directs that it shall be done, and the manner of doing it is simply a matter of arithmetic.

The Washington *Chronicle* says: If any weak-minded Greeleyite is disposed to take stock in the silly boasts of the New York *Tribune* about Democratic prospects in Pennsylvania, Ohio, and Indiana, he will do well to recall the boasts made about a month before the elections in Vermont and Maine. The majority in the latter was to be overcome, and the former was to receive a terrible scald. There was a time when that paper was an "organ." It then had some reliable correspondents, and could be relied upon to do some pretty shrewd figuring. It is now on a par with any other Democratic paper that draws upon its imagination or worthless dead-beats for its information. Whoever trusts will find himself a victim of misplaced confidence.

All remember the declaration of Horace Greeley just before the meeting of the Cincinnati Convention, that in case there should be a straightout Democrat in the field for the Presidency, he should give his support to that Republican who appeared to have the best chance of success. Mr. Greeley's hypothetical case has come to be the actual condition of the contest. The Straightouts have a candidate and Grant is the Republican who has the best chance of success. We shall see whether Greeley will be as good as his word.

The New Hampshire *Gazette* says: "Greeley, while at Rye Ranch, imparted to Mr. G. H. Jenness, his host, some valuable information in regard to raising dried apples. His plan is to plant early in the spring, in drills about nine rods apart. When the vines begin to run, and evince a tendency to "Go West," cover with wire screens to protect them from the bumblebees. Prune liberally, and dig before the frost comes."

FRIDAY MORNING, OCTOBER 4 1872

CITY.

A "CHEEKY" THIEF.—Several years ago at the time the noted "Buckskin Bill" was shot by Con ...nelly, in the upper portion of the city, there re... lived here a man named Chas Murphy He was ...ed a saloon keeper at the time of the shooting affair, ...and was proprietor of a place known by the su... pleasing title of "The Pooey Connelly whom ...placed on his trial, had no means with which to ...employ counsel A few of his friends made up a ...sufficient sum for that purpose Murphy had ...taken an active part in raising the subscription, ...and the various persons who had contributed ...towards that sum gave the money into his (Mur... phy's) hands to pay over to the attorney, ...instead, however, of doing this, Murphy ...quietly "decamped" one night, and ran off to As... toria Here he took passage on the steamer for Victoria On the way to that port, he ingratiated himself in the good graces and confidence of a fellow passenger, and cleverly managed to relieve him of a valuable gold watch, and some money When the vessel arrived at Victoria, complaint was entered against Murphy, who was tried by the authorities and sentenced to the chain gang a few months after, he escaped and returned to Oregon, where he took the name of Chas Brom ley. He wandered over the State, had was ar... rested several times on different charges Some time ago, he grew bold and came to this city He stopped at several of the principal hotels, re... making that a short time at each At every ho... tel where he stopped, numerous articles were missed, but the thief could not be detected in his operations Last Tuesday night he put up at the Base House, registering his name as Comfort Chas Brannan arose, he discovered that a purse containing $53 gold was missing He accused Comfort of robbing him, who, as a matter of course, denied the "soft impeachment" Search was instituted, and the money was at length found hid away between the wall and the bed which Comfort had occupied Comfort, to get out of the scrape, said he took the money while he was drunk, to play off a practical joke on Brannan Brannan accepted the apology, and nothing more was said about the money Some time after, Comfort met Brannan down stairs, and remarked to him that he had better go up to his room and take care of his (Brannan's) meerschaum pipe which had been left lying carelessly on the wash stand. Brannan went up to his room, and to his surprise, sure enough his pipe was gone He accused Comfort of stealing it, but indignantly denied the charge, and so the matter stood

The pipe was valued at $15 On Wednesday night, Comfort put up at the International Hotel He made the acquaintance of an old man and slept in the same room with him. Yesterday morning a valuable gold watch and three dollars in coin were missed from the room, and Comfort also The old gentleman informed the police and gave a minute description of his new acquaintance Offi... cer McCoy commenced to trace out the matter He tracked him from place to place without overhauling his man. He learned at last that Comfort had started to the steamer *Vancouver*, which was lying at the foot of Washington street McCoy hurried to the boat; but just as he reached the wharf saw the steamer swing out into the stream He shouted to the pilot and the boat came back Comfort was found and taken to the Station House, On his person was found the gold watch, three dollars, and the meerschaum pipe He is now in the City Jail and will be examined this morning before Judge Denny.

THE LOCH DEE.—This bark arrived at port Tuesday evening about 8 o'clock, in tow of the steamer *Rescue Hayward* from Astoria. The *Loch Dee* is comparatively a new vessel, having been built in 1870. She was built at Port Glasgow She is made of iron, and is a very pretty model The entire length of the vessel is 159 feet, with a breadth of beam 28½ feet, and depth of hold 18½ feet. She has a registered capacity of 780 tons, and is registered in the Liverpool Underwriter's book as "Class A 1, 20 years" But three voyages were made by this bark before the one in this port. The *Loch Dee* sailed from Liverpool with a general assorted cargo on the 25th of last April. From the time of sailing until the mouth of La Plata was reached, fair winds and calm weather were encountered. The passage from the last mentioned point to Cape Horn was rough, and at times stormy. Off Cape Horn the vessel was baffled for fourteen days with rough seas and heavy gales. Northwest winds and calms were encountered from Horn to the equator, and moderately fair weather for the remainder of the voyage. She made the distance from Liverpool to off the mouth of the Columbia in 153 days. Everything is in good condition, and no sickness or accidents occurred during the passage. The total cargo is 1,010 tons, which will be discharged at Flander's wharf.

ESSILT SETTLED.—For fourteen long years the records of our Courts have contained from time to time accounts of an equity suit concerning a tract of some 640 acres of land, situated a short distance below the city on the east side of the river, and known as the "Daisy Donation Claim." The suit has gone through the various Courts up to the highest judicial tribunal of the land—the Supreme Court of the United States—and at last found its way back into the Circuit Court of Oregon. We learn that yesterday the parties in interest, after much bargaining and discussion and much consultation, finally agreed upon a settlement and compromised the pending suit. So little was the law—fourteen years of waiting, months of continued labor, thousands of dollars of costs, the parties find themselves right where they began. We are informed that the land in dispute is valued at $500 per acre.

THE RUSH.—Yesterday was the great rush for the State Fair. During the week thus far, the weather has proved rather mixed—not positively stormy and disagreeable, but still with sufficient rain and clouds to seriously detract from the sum total of the enjoyment of visitors The attendance, considering these drawbacks, has been quite large but would have been much greater if the elements had decreed its frowns for another week The track usually reads the highest number on Thursdays of the State Fair—thousands being drawn out of curiosity to witness the principal races, which usually come off on that day To-day the attendance will be perceptibly less than yesterday, and to-morrow will be the signal for the break up and dispersion of the assembled crowds.

BARK STAR.—We understand that the bark Star, which has been lying for the last week at Astoria, will not come to this port with her cargo of lumber. In consequence of some misunderstandings or disagreements which exists, or has been of late, between the Oregon and California Rail Road Company, and parties in San Francisco the rails will not be used on the railroads in this State The Star, we learn, will be discharged at Astoria, and subsequently re-shipped to San Francisco by sailing vessel or steamer Enough iron will be left on board to stiffen her up, when the Star will proceed to this port and receive a cargo of wheat for Liverpool

THEATER AND CIRCUS.—For nearly two weeks past, Portland has been afflicted with a perfect rush of amusements,—the theater as well as shows, exhibitions, etc., having their many of attractions, gravitated by a sort of common impulse, towards Salem and its attractions.—Legislature and State Fair. To-morrow the State Fair closes with Waldron's troupe and Wilson's great circus. Both return to this city, to please in street and amuse the public, with their varied talents, as double performing exhibitions The Circus will give three performances next week, and a two season will soon be inaugurated at Ore Bino Theater

ORGANIZED.—On September 18th Rev A C McDougal organized Mt. Hood Encampment No 11, Independent Champions of the Red Cross, with twenty seven charter members, as Powell s City. Officers—Hon. James Powell, Eminent Commander, P A Vickers, S C J F Roberts S Kelly, C of H, M. Wing, Chaplain, J Linthurst, E of C, N Powell F S, S B Wheeler, M of C, W Nixon, R S, J O. Muxon, I S C, J. Powell, Imp, A Reynolds, Tiler

WILL BE PLANKED.—Several workmen commenced yesterday morning to grade that portion of Stark street, between Front and the river's bank. The street will be graded down and all inequalities leveled The stones near the intersection with Front are being loosened and wheeled to the edge of the water and scattered about in the depressions. As soon as the street has been graded, it will be planked from the ferry landing to the edge of the bluff on Front street, and such needed work

DISCHARGING.—The *Loch Dee* is now discharging her cargo at Flanders' wharf She will load with wheat for England as soon as her freight is dischargedand a return cargo of the cereal can be secured.

REPORT.—We have been kindly furnished by the Treasurer, Mrs Sam M Smith the following report of the Ladies' Relief Society for the month of September September 1st to cash in treasury, $ 49 78 fines and dues $14 donations, $10 total, 424 78 Expenditures for the relief of the poor during the month of September $25 75 to work done toward the completion of 'The Home, ' $210 60, to current expenses of 'The Home, ' $25 total, $300 55 Balance, $121 24

PASSENGERS.—The following passengers took their departure last evening on the steamship *Oregonian* for San Francisco Geo W Harper and wife Mrs I H Montgomery and infant L Caballin, Mrs H McCarter Jno Merrill and son, A Currier, Henry Appe, C A Warren Mrs Mountain, A Gilsan Mrs Hearn, J S Brenard, Frederick Wilson D F Catheline J W Harriman, H R Franciscus and 70 in the steerage, together with 43 Chinamen for Hongkong

THE QUARTERLY EXAMINATION for Multnomah county, as heretofore stated, will take place tomorrow morning at 9 o'clock, in the North School building. All applicants for certificates and all teachers in the public schools who have not been examined by the present Superintendent personally (including those who hold renewed certificates) are expected to attend Directors of any district are invited

DEAD.—It is with feelings of sincere regret, that we make the sad announcement of the death of Mr. William Davidson, the well and widely known real estate dealer of this city He died at the Insane Asylum, whither he had been removed about one week, yesterday at 4 o'clock P M The deceased was aged fifty four years Mr Davidson came to this State from Colorado, in 1861.

HAVE ON SHIP.—It is reported that two members of the Sportsmen's Club went down to Sauvie's Island, a few days since, to shoot snipe, They succeeded in killing eighty three of these birds—one killing forty and the other forty three These fellows are some on snipe A few days' sport with similar success would go far towards the extermination of this specie

FRUIT THIEVES.—The *Era* says The Chinese residents of this city are making themselves too familiar with the orchards belonging to some of our citizens One of the heathens was caught in the orchard of Mrs Frush the other evening in the act of making away with some fruit, but managed to escape owing to the "nervousness" of the party who gave pursuit.

HARD SHOWER.—About 2 o'clock yesterday afternoon a very heavy shower came up, which caused a temporary suspension of out door generally, and especially among the graders along Fourth street. For fifteen minutes, or more, the rain fell in torrents, causing the street gutters to choke with the sudden accumulation of water

DISTRICT CONFERENCE.—The Portland District Conference of the M E Church, will be held in East Portland, on the 23d and 24th inst The District Conference is composed of all the traveling and local preachers, the exhorters, the district stewards, and one Sunday School superintendent from each circuit station in the district

TO LEWIS RIVER.—Mr. Weir, an old citizen of East Portland, has removed to the East fork of Lewis river and will there go into business in the merchandising line. He has commenced the construction of a wharf at that place and will run his boat—the *Swallow*—regularly each week, to the head of navigation of that river

AGGREGATE ATTENDANCE.—The aggregate attendance at the Taylor street Sabbath school, for the last three months, has been as follows July, 1 116 August, 1,086, September, 1,106 The average attendance has been as follows July, 279, August, 272, September, 281

SWELLED.—The late rains have had the effect not only of clearing away the smoke, extinguishing the fires in the woods, and rendering the atmosphere pure and balmy, but have also perceptibly swelled the volume of the river at this place

ANKLE DISLOCATED.—A lady while crossing Fourth street, at Salmon, the other night slipped and fell She fell among some lumber and dislocated one of her ankles A physician was called and reduced the luxation, and the lady is doing well

ARRESTED FOR RAPE.—A man named Humphrey was arrested yesterday by Constable Daly charged with an attempt to commit rape on a young lady in the upper portion of the city. The case will come before Justice Davis this morning.

CROWDED.—Notwithstanding the threatening indications of the weather yesterday morning, a large number of persons took the cars for the Fair grounds Six cars were crowded with passengers on the outward bound train

INSPECTED.—The hull and boilers of the tug boat *Ainsworth* were inspected last week by Captain Flanders, Inspector of Hulls, and James Lotan, Inspector of Boilers Both were found satisfactory and her certificate renewed.

STORES CLOSED.—On account of the Jewish New Year, yesterday, many of the principal stores of the city were closed, which gave a rather dull, unbusiness, Sunday-like appearance to the streets

NO COURT.—In consequence of Judge Denny being absent at the Fair yesterday, he did not hold the usual interview with sundry gentlemen who spent the night in the city jail

FERRY HOUSE.—We learn that the owner of the Stark street ferry, proposes soon to commence the construction of a ferry house at the foot of L street, East Portland

FALLING.—We learn that the Columbia is rapidly approaching the low water mark at and above the Dalles It is falling at the average rate of one inch daily

TILL MIDNIGHT.—Since the ferry boat at Stark street has been using the new cable, the boat will run until midnight for the accommodation of the public

SECOND STORY.—The masonry work on Smith s new brick building on Ash street has reached the commencement of the third story.

DEPTH OF WATER.—The bark *Loch Dee* when she arrived at this port, was drawing sixteen feet and ten inches of water.

UNITED STATES AND GERMAN MONEY ORDER SYSTEM

TO THE EDITOR OF THE OREGONIAN

The Post Department of the United States of America and the Post Department of the German Empire, having by convention agreed upon a system of money order exchanges, I submit the following for the information of those who may wish to transmit money to, or receive remittances from Germany

By the agreement of the convention the system of Postal Money Orders between the United States and the German Empire, by mutual agreement, is to go into operation October 1st, 1872

1 The exchange of Postal Orders between the two countries is to be effected through the agency of two postoffices, termed International Exchange offices The International Exchange office on the part of the United States, is New York, and that on the German Empire is Cologne

2 Certain Money Order Postoffices in this country (Portland Post office being included in the number) designated for the purpose by the Postmaster General, are authorized to issue money orders on the postmaster at New York, payable to the beneficiaries in the German Empire, and to pay orders issued by that postmaster for sums remitted by the Postal Department of the German Empire, for payment to the beneficiaries in the United States Hence, a postmaster in either country cannot draw a German International Money Order for an amount deposited with him directly upon a postmaster in the other, but must draw the same upon the International Exchange office of his own country.

A German International Money Order must not be drawn for a larger sum than fifty dollars in United States currency, and must not contain a fractional part of a cent The fees for the issue of German International Postal Orders are as follows, viz

On orders not exceeding $5, fifteen cents over $5 and not exceeding $10, twenty five cents over $10 and not exceeding $20, fifty cents over $20 and not exceeding $30, seventy five cents, Over $30 and not exceeding $40 one dollar over $40 and not exceeding $50, one dollar and twenty five cents No other currency than United States, or International bank notes can be received or paid in this country.

1 The issuing postmaster must not undertake to decide definitely upon the actual value of United States gold coin of a certain sum in currency for which he issues a German International Order

He is at liberty, however, to advise the remittee as to its approximate value which may be found to differ materially from the real value, as the latter is to be computed upon the basis of the premium upon gold, upon the day of the receipt of the German International Order by the postmaster at New York. Hence, the Department cannot undertake, on behalf of a remittee in this country, to pay a determinate sum in gold in the German Empire

As the premium of gold is variable, it is evident that a German International Order, issued for a sum in United States currency, may, when received at the Exchange Office in New York, yield a sum in gold greater or less than that considered at the office of issue as the equivalent of such order.

For the same reason, the value in United States currency of an order in gold, certified by the Exchange Office of Cologne, to the Exchange Office of New York, would depend upon the premium on gold on the day of the receipt of the list containing such certified order.

The Department therefore can only ensure payment to be made to a beneficiary in the German Empire of the gold value of any German International Postal Order issued for an amount in United States currency, and to pay to a beneficiary in this country the currency value of an International Order in gold from Germany.

The Portland postoffice having received books and blanks is now prepared to issue Money Orders upon Great Britain, Scotland and Ireland, Switzerland and postoffices in the German Empire

Respectfully, L H WAKEFIELD

Natural Decay—Protect the System

The human body is a machine and therefore cannot endure forever but like a watch or sewing machine it will last much longer if properly regulated and duly repaired, than if no pains were taken to keep it in order The great object of every one who desires a long and healthy life should be to put his body in a condition to resist the life threatening influences by which we are all more or less surrounded, and no invigorant and corrective at present known so effectually answers this purpose as the vitalizing elixir which under the appropriate name of Hostetter s Stomach Bitters, has been for more than twenty years the standard tonic of America In every city, where the atmosphere is contaminated with the effluvia inseparable from large populations or in marshy regions where the sickly soil reeks with miasma on the principles set in the forests where every fall the air is tainted with exhalations from rotting woods and grasses or decomposing leaves—in short, in every locality where malaria exists this powerful vegetable antidote is frequently called Fever and ague bilious fevers dysentery, congestion of the liver jaundice rheumatism and all diseases which are generated by infected air impure water or sudden changes of temperature may be averted by strengthening and regulating the system in advance with Hostetter s Bitters Autumn is always a season of perils, especially to weak, susceptible organizations Even the more vigorous are apt to be in some measure depressed by the rank atmosphere loaded with deleterious gases produced by vegetable decay The fall is a period of no year when the renovation and regulation of the living machine is peculiarly important and the Bitters should therefore be taken daily at this critical season

PLANTATION BITTERS!

S. T.--1860--X.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

The Crow.

MAUSOLEUM DEDICATORY MELODIES.

The *Express* violates no confidence in making public, somewhat permaturely, the musical portion of the elaborate programme prepared by the officious and gentlemanly management for the dedication of the Democratic mausoleum to-morrow evening. Four artists of established reputation, possessing voices of great power, mobility, sweetness, and compass, have been engaged and will positively be present. Each will appear in a vocal solo, and all will unite in a magnificent quartette, supported by the entire congregation. The first, and one of the choicest numbers of the bill, will be

A WAIL—BY D. W. VOORHEES.

Air—"*Bonnie Doon*"

When first I saw this hated crow
My stomach it rebell-ed at;
My bowels heaved with such disgust,
That 'pon my soul, I thought I'd bust.

I roared and yelled by day and night,
I fought the faith and kept the fight;
And still I swear, with all my might,
In eating crow there's no delight.

I only eat enough to save
Myself from this dark, hopeless grave
Where every Bourbon's sure to go
Who will not eat the hated crow.

The next will be a brief but brilliant scintillation of song by Fayless W. Hanna, late of the Nilsson Concert Troupe, entitled

HAPPY HANNA'S HYMN.

Air—"*Show Pity, Lord.*"

Oh, Daniel, do not murmur so;
I always loved the luscious crow;
My bowels melt with fond delight
Whenever I can get a bite.

My dustet I would never shake,
Nor say b'nator would I make,
If I could only surely know
I'd always have my fill of crow.

Then the roof-lifting bags of Colonel F. G. Cookerly, ex-Mayor of Terre Haute, will sweetly swell in rapturous harmony in an

ODE TO THE CROW.

Air—"*The Morning Light is Breaking.*"

My bowels yearn immensely
Toward the precious crow;
I love the bird intensely
H.w much, you'll never know.

Quails keep my stomach quiet,
Just for a meal or so;
But, as a regular diet,
I can't dispense with crow.

The next and last solo will be sung by the Hon. Thomas A. Hendricks, late of the Northwestern Confederacy:

WE'VE TURNED OUR BACKS.

Air—"*Auld Lang Syne.*"

Let our old watchwords be forgot,
And never brought to mind;
Our principles have gone to pot,
Our creed is left behind.

For on the past we've turned our backs,
Then sure, caw, caw, caw, caw,
We'll take a friendly dish of crow,
Into each hungry maw.

The musical exercises will close with a song written by Mr. Hanna especially for this occasion. Messrs. Voorhees, Hanna, Cookerly and Hendricks will clasp hands in fraternal circle, and uniting their vocal powers, lead the congregation as they warble:

THERE'S NO MEAT LIKE CROW.

Air—"*Sweet Home.*"

In the dark lanes of politics,
Where e'er we go,
Be it ever so sable,
There's no meat like crow.
This life's a dreary sky beneath promises fair,
Of fat places in office and plunder to spare.
Crow, crow, lovely crow,
Be it ever so sable,
There's no meat like crow.

THE TERRITORIES.

Mr. C. L. Whitney was jolted out of a wagon near Olympia last week, and had his arm broken by the fall.

Four extra conveyances were sent out from Olympia to the railroad terminus for the use of Mr. Cass and the other N. P. R. R. magnates on last Tuesday.

The Salt Lake *Tribune*, publishes the marriage notice of Henry A Ferguson to Mrs. Mary Booth, recently one of the polygamous wives of Captain Burt, Chief of Police of that city.

Seattle coal is in active demand at San Francisco at $11 per ton, which is the price charged to dealers from ships' sides, according to commercial reports of San Francisco papers.

Miss Catlin, a lady teacher for the Olympia Seminary, has arrived from the East. A local paper says she will "introduce the kindergarten system of teaching young children." What is it?

A Sound paper says: The bark *Edward James* has been chartered to load lumber for Shanghai at $30 per thousand feet, and the bark *Windward* at $32 per thousand feet. Both vessels will load at Burrard Inlet.

The *Courier* says a movement is on foot to hold an independent mass convention at Olympia, the object of which, according to the Seattle Democratic paper, is to save Judge McFadden from the damaging consequences of an exclusive party nomination.

A Washington Territory exchange says: During the year ending December 31, 1872, the total receipts of the Government of British Columbia amounted to $1,206,832 88; the expenditures exceeded this sum $17,395 76. Salaries of officials amounted to $120,000.

The Clarke County (W. T.) Democratic Convention has nominated Judge Lancaster for the Lower Council District, and Col. B. F. Shaw for the Upper. For the Legislature the ticket stands: Webster Abbott, D. D. Russel and Julius Saisic; Sheriff, Alex. Coffey; Auditor, John O'Keane.

Henry Heyer and Michael Hartart, were hanged by ten masked men on Snake Creek, Dakota, on the 20th ult. The victims were men generally accounted as the harborers and companions of a band of horse thieves which infested the country, and as doing a little in that line themselves when occasion offered.

A sharper with a horse which he called "fast," went into the Flathead tribe of Indians in Montana, a short time since, and got up a trial of speed with an Indian sport, betting his coin—$400—against twenty head of ponies. The sharper went home on foot, and Mr. Siwash pocketed the money. Blood, contrary to the old adage, didn't tell in that race.

Not long since, in the Olympia Soap Works, an iron boiler, full of soap material, burst whilst subjected to considerable heat, and spread its contents in every direction. It contained 2,880 pounds of the material, which being in a liquid state, ran off, escaping through the cracks in the floor. Besides the cost of the boiler destroyed, the loss of soap was estimated at $150.

The District Court will convene at Vancouver on the third Monday of this month (October). The docket is rather light, but then the Grand Jury will make some business. At present there are about twenty civil cases, about equally divided between law and equity. Three "unfortunates" wish they hadn't done so, and now pray the aid of the court in the premises, and that the bonds of matrimony, etc. One man has lost his good name, fame and reputation, and wants ten thousand dollars. Four men are under bonds for cutting timber on Government land. One for selling lager beer without a license, and one for aiding a deserter to escape.

Some of the 600 Saints who recently arrived at Salt Lake from Europe are thus described by an exchange: One of them, an old lady from Copenhagen, verging upon the traditional three score and ten of the Psalmist, had her hair decorated with orange blossoms, surmounted by a white grave hat. She was followed by Mr. Richard Jones, an old, gray haired English soldier, dressed in an infantry great coat, and wearing an old naval cap donated him by the first officer of the steamer *Minnesota* on the voyage from Liverpool, Jones having had his own blown off during a gale. Next in order came a number of women, with babes in their arms and carpet bags and tin pots slung over their backs. One of these women mentioned had a relinue of eight little ones. There were babies fat and babies lean. Some of the Scandinavian youths were red hats. The Swedes were quaintly attired in gray cloth, thick as ordinary carpet, while their linen was nearly as coarse as the duck of which summer pants are made. There were a few London clerks in the long procession, with threadbare clothes and out at elbows, who smiled at the change of scene, and with their countenances lit up with that kind of hope which is said to tell a flattering tale. Mr. M. C. Meekin, from Belfast, with his wife, pretty daughter and strapping son, were the only representatives from the "Emerald Isle," but he explained in an apologetic manner to a reporter: "But we're all Scotch bodies." The age of the oldest Saint was 86 years, and the youngest infant Saint was six weeks.

A bit of trick was played by a couple wanting to be married last week at Vancouver, which is thus described "The bridegroom was a grass-widower—that is, he had a wife once, and had no wife two weeks ago—and yet his first love "still lives." He is of the mature age of about thirty-six years, and fell in love with a sweet maiden of fourteen years and a half. She reciprocated his ardent feelings (that's well put ain't it?) Well, the old man didn't reciprocate worth a cent; in fact he "forbid the bans." Thereupon the girl (dutiful child) made an affidavit that her father was incapable of managing his own business, and thereupon the Probate Judge appointed a guardian, who gave his consent to the marriage, and then the happy couple were united in "the holy (?) bonds of matrimony." So far, so good, but the guardian has daughters of his own, and he may find that he has let loose a chicken that will come home to roost. At any rate, the father of the girl is hopping mad, and claims that he lives within six miles of Vancouver, he should have had notice of the applications, and he now talks of damages, &c."

Wheat in Liverpool, 1s 9d

The unsatisfactory condition of the money market is still much commented on in financial circles, and we regret that it seems there is no immediate remedy for the prevailing closeness. The mines in Eastern Oregon and Idaho have yielded fair returns the past season, and remittances from that direction are fair; whereas from the Willamet country returns are slow in coming in The scarcity of money threatens to become a serious inconvenience to business, especially to jobbers who are required to make prompt payments, and find themselves unable to do so unless their customers are in a like manner ready to respond. Some of our contemporaries are urging the repeal of our usury law as a remedy for these things, but we are not at all convinced that the law of our State is the cause of our difficulty in this respect. While it is true that in some States which have no usury law interest is no higher than our own, yet the State of California, which has been cited as an illustration of the absence of a law on the subject reducing rates of interest, is at this time under a pressure in financial matters much greater than Oregon. So the principle is not one well established by experience.

A fair amount of Wheat has been received during the week now in review, by wagon, rail and boats. A slight decline in California markets has similarly affected our home trade, and $1 42½ ₩ cental is now about the highest range. The State Fair has doubtlessly had a tendency to temporarily retard receipts of this and other products during the present week. Some damp Wheat has been put upon the market, but in limited quantities, and it has been separate from the best merchantable, so that the good character which the Oregon production has universally borne will not suffer by it.

The Flour market is dull, with a good supply and but little demand outside of home consumption and to fill a few orders from Sound ports. Standard brands are weak at $5 25, while country brands are inactive at $4 25@4 50 ₩ bbl. The *Robert Crean* will take 1,000 bbls to fill orders from Victoria. San Francisco rates are unchanged

A full supply of Oats is on hand and the receipts are increasing. Price from 40@42½c ₩ bushel.

Barley is in light quantities and inactive, $1 20@1 25 being the ruling rates offered by dealers.

The Hay market is well supplied with Timothy and wild, loose and baled, for which producers receive from $10 to $18 50 ₩ ton, according to time and manner of putting up.

Bran, Chops and Middlings in market exceed the demand, and are weak at the prices noted.

Potatoes are plentiful, and our quotations are from 65c @$1 ₩ 100 lbs, according to quality.

Grocers offer 15½ to 15¾c for Onions, which are in limited supply.

The dairy market is not in as good supply with choice articles of Butter as could be wished, but rates remain about as at our last report.

Fruits of all kinds and Vegetables in their season are in abundant supply, and are going at moderate rates.

The Wool market is now at a standstill, the fall clip being all in. Eastern reports quote the market as dull, and note a material decline in all inferior grades.

The following is the latest from reliable commercial papers in San Francisco, concerning the Fish market of the coast:

The bark *H. W. Almy*, from Columbia river, brought Salmon for cargo—say 10,942 cs, 379 bbls, 188 hf bbls, 50 kits, and 28 tierces. The export demand for Oregon Salmon, in cases, is considerable. There are also Eastern buyers here for whole Salmon for the Boston market, to be shipped thence in tank cars for canning after a style peculiar to themselves. Parties here purchasing say they find great difficulty in getting fishermen to furnish supplies as desired.

Our Codfish fleet has not been very successful thus far for the present year; two vessels only arrived to date—the *Wild Gazelle*, due last at hand, with 61,000, only two-thirds of a full catch. The total catch thus far for the season is less than 200,000 fish. The result will be large supplies required from the East during the season

Eastern Mackerel are in lessened supply; stock light for the season.

For Salmon, the present price is, ₩ dozen, $3 for 2½ lb cans, $2 50 for 2-lb cans, and $2 for 1-lb cans; barrel Salmon $5 to $6; hf bbl $3 00 to $4.

NATIONAL REPUBLICAN PLATFORM

ADOPTED BY THE REPUBLICAN PARTY, IN CONVENTION AT PHILADELPHIA, JUNE 6, 1872.

The Republican Party of the United States assembled in National Convention in the city of Philadelphia on the 5th and 6th days of June, 1872 again declares its faith, appeals to its history, and announces its position upon the questions before the country:

1. During the eleven years of its ascendancy it has accepted with grand courage the solemn duties of the time; has suppressed a gigantic rebellion, emancipated four millions of slaves, decreed the equal citizenship of all and established universal suffrage. Exhibiting unparalleled magnanimity, it criminally punished no man for political offenses and has warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their fellow citizens. It has initiated a new policy toward the Indians; the Pacific Railroad and similar vast enterprises have been generously aided and successfully conducted to completion, the public lands have been freely given to actual settlers; immigration has been promoted and protected, and a full acknowledgement of the rights of naturalized citizens secured from European powers. In the form of National currency, it has provided for the National credit, and equalized it under the most extraordinary financial pressure. It has negotiated new loans at lower rates of interest. The revenues have been carefully collected and honestly applied. Despite the annual large reductions from the rate of taxation, the public debt has been reduced during U. S. Grant's Presidency at the rate of $100,000,000 per year. A great financial crisis has been averted, and peace and plenty prevail throughout the land. Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the Nation kept in the highest position throughout the world. This glorious record of the past is the party's best pledge for the future, and we believe that the people will not entrust the government to any party or combination of men, composed of those who chiefly have resisted every step in this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectively maintained throughout the Union by efficient and appropriate State and Federal legislation. That law and the administration should admit of only such discrimination in respect to citizens by reason of race, creed, color, or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained because they are right, not merely colorably because they are law, and should be carried out according to their spirit by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured the amendments.

4. The National Government seeks to maintain the honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the Government are considered rewards for mere party zeal is fatally demoralizing, and we therefore favor a reform of the system, by a law which shall abolish the evils of patronage and make honesty, efficiency and fidelity the essential qualifications for public position, without practically creating a lifetenure of office.

6. We are opposed to further grants of public lands to corporations and monopolists, and demand that the National domain be set apart for free settlement by the people.

7. The annual revenue, after paying current debts, should furnish a moderate balance for the reduction of the principal of the public debt, and except so much as may be derived from a tax on tobacco and liquors, be raised by duties on importations, which should be adjusted to aid in securing remunerative wages to laborers, and to promote the industries and growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for the country are entitled to the care of a generous and faithful people. We favor such additional legislation as will extend the bounty of the Government to all our soldiers and sailors who were honorably discharged, and who in the time of duty became disabled, without regard to length of service or that cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance, once a subject always a subject, having at last, through the efforts of the Republican party, been abandoned, and the American idea of the right of an individual to transfer his allegiance having been accepted by European nations, it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Governments, and we urge such legislation as is necessary to that end.

10. The franking privilege ought to be abolished and a way proposed for reductions in the rates of postage.

11. Among the beneficial results of the war with the Rebellion is that which concerns the relations of capital and labor, and the Republican party recognizes the duty of shaping legislation so as to secure a full protection and ample field for capital, and for labor which creates capital, the largest opportunities and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an important duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13. We denounce the repudiation of public debts, in any form or disguise, as a national crime. We witness with pride the reduction of the principal of that debt, and of the rates of interest upon the balance, and confidently expect that our excellent national currency will be perfected by a speedy resumption of specie payment.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, their application for admission to further usefulness is received with satisfaction, and the honest demand for equality before the law of all citizens of the Republic should be treated with respectful consideration.

15. We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party proposes to respect all rights reserved by the people to themselves, as carefully as the powers delegated by them to the State and Territorial governments. It disapproves of asserting constitutional laws for the purpose of removing evils by the interference with rights not surrendered by the people to either the State or National Government.

17. It is the duty of the General Government to adopt such measures as will tend to encourage American commerce and ship-building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustrious services of U. S. Grant have commended him in the heart of the American people, and we only bid him at our head we start to-day on a new march to victory.
